Tony,

Hillsboro Old City Lake is a public-cooperative freshwater impoundment with 93.5 surface acres in Montgomery County. This impoundment has a solid fish population which has been stocked by the Illinois Department of Natural Resources for a number of years. This fishery is used by hundreds of anglers each season, with many harvesting fish for human consumption. No areas of this lake are restricted to bank, or boat anglers. In my view, the entire lake is fished by recreational anglers in which different species are consumed on an annual basis. Let me know if you need further information.

Sincerely,

Jeffrey Pontnack CFP
